

## 14 Teaching Methods for Professional Teachers

**One single book which every professional teacher cannot afford to miss!**

This book was originally written in Thai language by Dr. Tisana Khemmani, an associate professor of the Faculty of Education, Chulalongkorn University, Thailand. The author presents 14 teaching methods, which most teachers are familiar with, in a new perspective that casts light on the confusion, ambiguity, and misunderstanding or distorted concepts held by many teachers. The author systematically clarifies important concepts of each teaching method by analyzing, distinguishing, and differentiating specific objectives and unique features of all the 14 methods, which will help teachers gain a deeper understanding of and be able to use each method more appropriately and effectively.

This book has gained public interest and been widely received throughout Thailand and has consequently been published for the 13<sup>th</sup> times, Chulalongkorn University Press deems it appropriate to translate and publish this book in English for international dissemination, a testimonial of contribution with pride for sharing an educational body of knowledge at an international level.
