Part I – Vocabulary - Cloze Test (20 questions)

Passage 1:

The psychology of motivation is a fascinating field that explores why people initiate, continue, or terminate a behavior at a particular time. It (1) _____ both internal and external factors that stimulate desire and energy in people to be continually interested and committed to a job, role, or¹ subject. Internal motivation, often (2) _____ to as intrinsic motivation, comes from within the individual, such as the enjoyment of a task itself. External, or extrinsic, motivation (3) _____ from outside rewards, like money or praise. Understanding what drives us is essential for setting and (4) _____ goals. For instance, while extrinsic rewards can be effective in the short term, intrinsic motivation is often (5) _____ with long-term persistence and greater satisfaction. Cultivating a sense of autonomy, mastery, and purpose can significantly (6) _____ intrinsic motivation. This is why environments that (7) _____ personal growth and provide meaningful challenges are often more stimulating. It's a complex interplay of various factors, and what motivates one person may not (8) _____ motivate another. Therefore, a personalized approach to encouragement and goal-setting is often the most (9) _____. Ultimately, harnessing the power of motivation is key to unlocking human (10) _____.
